

PALLET SCRAPER

The Company that needs a Pallet Scraper is already paying for it !

Concrete buildup on pallets will cause quality problems. Brushing will get rid of the dust, but not the buildup that is caused by spillage. Our pallet scraper has these field proven features:

- Hard, tungsten carbide scraper plates that have 4 sharp edges and are easily replaceable.....in fact all the carbide plates can be changed in less than 30 minutes.
- Special jam-proof design
- Spring loaded tension – requires no adjustment
- Small footprint.....does not require a floor stand.
- Cleaner pallets reduce mold wear and increase bottom flatness
- Molded block products have consistent height
